Hospital of S. Maria della Pace,
Monte San Savino,
Arezzo.

8 February 45.

STATEMENT OF:-

CELATA Antonio, Doctor,
Hospital of S. Maria della Pace,
Monte San Savino,
Arezzo.

Male
52 years.

Who saith,

I am the sanitary director of the HOSPITAL OF S. MARIA DELLA PACE and I have carried on this profession in MONTE SAN SAVINO for the past fifteen years.

On the 11 July 44, I examined, in the mortuary room of the hospital, a body, fully dressed, but in an advanced state of putrefication.

I recognised the body as being that of CARLETTI Luigi aged 23 years, the son of Antonio, only by his clothing. I had known CARLETTI a long time, being a friend of the family.

I took cuttings from the various garments and the shoes. These were identified by his father and GORI Idina who had seen him during the period of his imprisonment in the Villa CARLETTI.

In no other way could evidence of identification of the body have been given owing to its state of advanced putrefaction, all the soft tissues having been destroyed.

Examination of the body showed a bullet wound in the right calf and two bullet wounds in the region of the right side of the thorax.

All these bullets had passed through the body and could easily be seen by the position of the corresponding holes in the clothing.

The aspect of the wounds allow me to state with certainty that the wounds as described above were inflicted from behind, probably while CARLETTI Luigi was running away.

The wounds which caused the death of CARLETTI are those in the region of the right side of the thorax already described.

I have read over this statement. It is correct and true. I herewith append my signature.

(Sgd.) CELATA Antonio

Statement written down in Italian and signature witnessed by DOTTOR Floris, interpreter, in the presence of Sgt. CHARLES, both of 78 Section S. I. B. on Thursday, 8th February, 1945. at the HOSPITAL OF S. MARIA DELLA PACE, MONTE SAN SAVINO, AREZZO.

I certify that the above translation from Italian is correct and true and to the best of my ability.

Dottor Floris
DOTTOR Floris.
